

RuTerminal. Список инструментов. OIS

Инструменты OIS (Overnight Index Swap)

В RuTerminal созданы инструменты, котировки которых банки могут поставлять в систему с использованием

- 1. интерфейса для ручного ввода котировок в систему и
- 2. FIX Api для автоматизированной поставки котировок в RuTerminal.

Если вы хотите поставлять котировки — сообщите список инструментов (кодов) — мы добавим их в список ваших котировок.

Эти котировки доступны для:

- 1. Просмотра на экранах ваших терминалов и
- 2. Загрузки в ваши системы с использованием FIX Api.

Если вы не нашли требуемый инструмент, сообщите нам — мы добавим его по возможности.
